S/V MIGRATION

Dear K.Bruce,

My name is Philippe K.NON would like me to follow up on your request as I will be the person who will welcome you at our facility

I understand your special need and will be able to answer within two days as I am waiting our engineer solution on how to haul up s/v migration

Until then I like to let you know our fees as a guideline which we will complete once we know in details what will be the extensive work you mentioned, we need to protect the surroundings area during any jobs made.IE: paint, welding ect...

Yes you can remove your mast we can arrange a crane

Yes you can have a tent constructed let us know if you need our assistance

We will prepare a working space these will make it easy to handle your extensive work

	MONTHLY	Long stay discount
RENTAL HARDSTAND	13 779	TBA
TRAILER up&down	17 076	
PRESSURE WASH	2 297	
CRADDLE SUPPORT	TBA	

Please do not hesitate to contact me if you need further information mobile:(+66) 08 892 6930

Best regards

Philippe Zircon

Subject: Trimaran Migration haul, hardstand, refit

Sawat Dee Khrap Non,

My wife and I had a very nice visit to your boatyard and a nice talk with Ling. You have a beautiful facility.

I looked at the trailer and I am not sure that it can haul our trimaran. I have included some photos so you can see how we have come out on trailers in the past. As you can see, we are more like a monohull because we have a small keel.

Please tell us if you think you can haul our boat and what the cost and hardstand fee will be. We have extensive work to do and will be on the hard for approximately 6 months. We will also need to have the masts removed and a tent constructed. I don't know if this is possible at your boatyard.

I look forward to hearing from you.

Kop kun khrap,

Bruce

s/v Migration

Migration Stats:

Length: 46.5 feet / 14.3 meters

Width: 25.25 feet / 7.7 meters

Depth: 4.8 feet / 1.5 meters

Displacement (estimate): (9,000 – 10,000 kg)

43 years old (1969)

Built in a yard in Japan, Fiberglass over plywood construction with polyester resin.

CROSS 46
